

# Overview

- Reparations is the only legal vehicle for generational ADOS repair.
- Time is NOT on our side.
- We get what we demand. "Reparations Now"

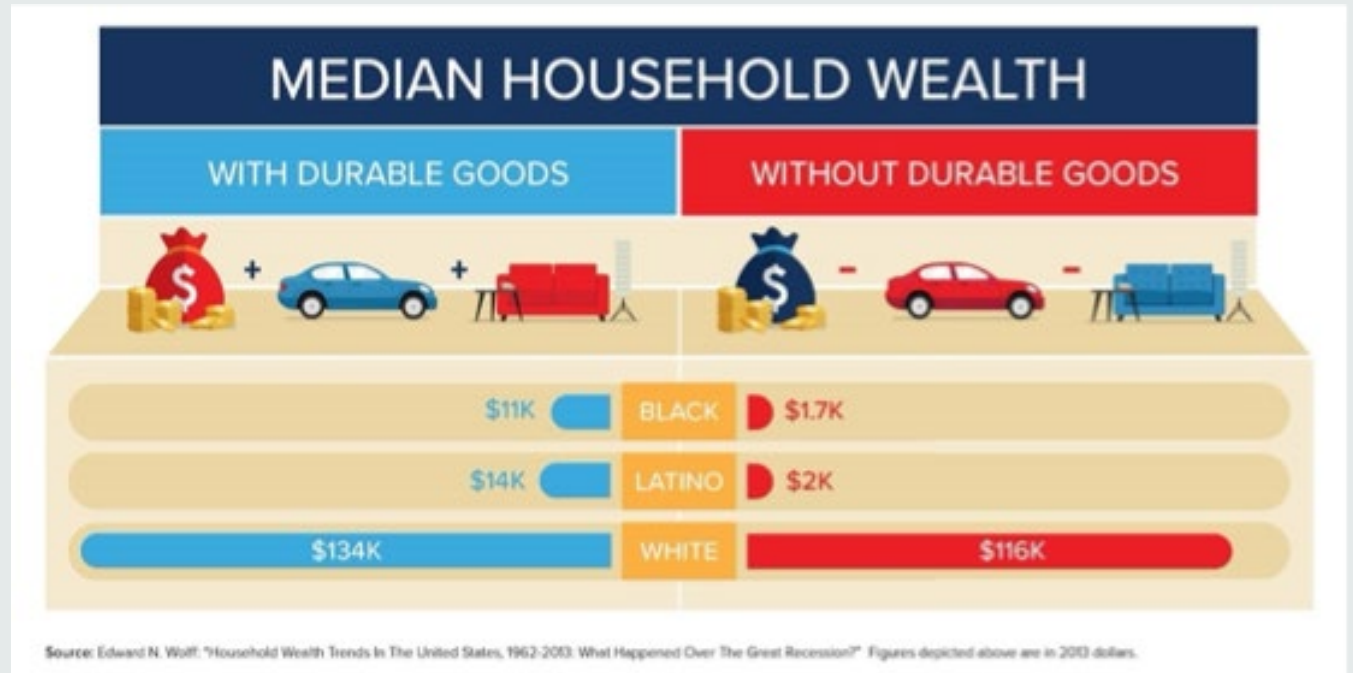

# ADOS Reparations

The time is now.

The reality of  
ADOS family  
“wealth”.

We are under water.

Mole hill

Mountain

We have a  
choice a  
mountain or a  
mole hill.

Reparations is the legal framework for groups of racial groups affected by the legacy of white supremacy.

Constitutionality is sound with a reparation's framework.

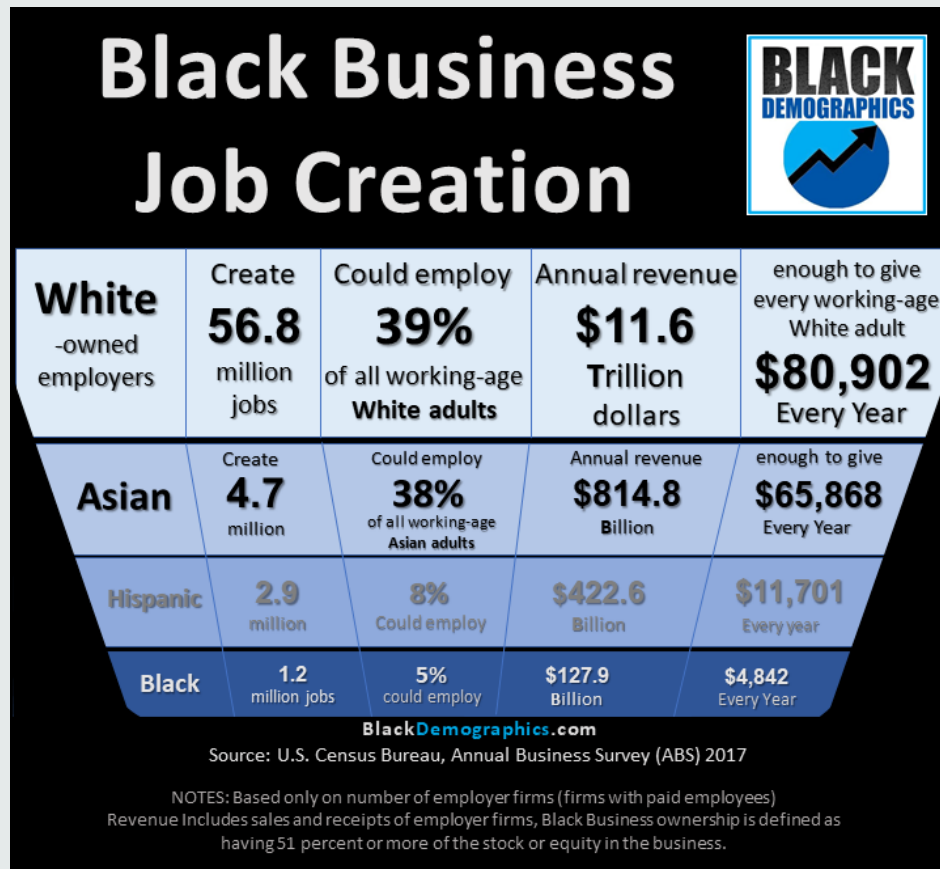

Without this framework it is unconstitutional to push for race-based policies.

Time is not on  
our side.

The times are critical.

# Here's where we are.

- The legacy of the ADOS/Black slave experience has created a 228 year advantage and safety net for white Americans both American born and Caucasian immigrants.
- ADOS/Black Americans are projected to mushroom economically, politically and socially.
- ADOS/Black Americans are still under antiquated racist policies that created fertile ground for social dysfunction and generational poverty.

# Priority One Stabilization

ADOS Reporative Justice Fund

# What is the “ADOS Reparative Justice Fund”?

ARJF Legislation

What are we  
addressing.

ADOS is in critical condition

# Stabilize then study!

Avoiding bleed out.

# What this fund does.

The bones.

- This bill is currently being authored by Sen. Champion
- Create a permanent “endowment type” fund for ongoing resources to flow directly onto ADOS communities.
- The fund should seed with a \$10 billion dollars base.
- We want a 4% added annually to the ARJF in perpetuity.
- We would draw a 10% stream of revenue to be invested into 6 sectors.

# The Sectors

Areas critical for investments.

- Health
- Economic Development
- Housing
- Education
- Community Repair
- Faith Based Initiatives

# What can we do?

Next steps.

We need to put  
resources into  
stabilization  
first!

Then we can  
study for even  
longer-term  
impact.

With stabilized ADOS thought  
leadership.
